

PETITION

TO: His Honor The President of The Newark City Council  
The Newark City Council.

We, the undersigned, respectfully submit this petition in opposition to the proposed ordinance which will prohibit at all times parking on certain streets in the City. (Section 17.18 of the revised ordinances of the City of Newark.

Whereas: many of the listed streets in the proposed ordinance can be used for parking without interfering with the flow of traffic.

Whereas: it will mean a public hardship by forcing people to use private parking lots at considerable sums of needless expense.

Whereas: it discourages people from using our shopping facilities and causes undue hardship on the merchants established in the affected areas.

Whereas: in almost all circumstances cars may be parked on most of the streets during non rush hours and after seven p.m.

Therefore: be it resolved because of the preceding reasons set forth objecting to the proposed ordinance, we the undersigned urge that the City Council meet with the Newark Citizens' Traffic and Safety Committee to work out an equitable solution, in the interests of the Citizens.
